“ I had the pleasure and honor to work with Donna at Chiles Middle School. We shared students and experiences for all the years that we worked together. We continued to share our favorite books and authors in retirement. Who will I share these with now? She will be truly missed at our retirement luncheons. Rest in Peace, Donna.

“ As some of you may know, Donna and I were best of friends for a very long time. Throughout the years we shared our lives with one another. She truly was like a sister to me. I will dearly miss her and can't believe I will never see her again. As has been noted she was kind and loving and dedicated to her students. She loved animals and cared for and about them all her life. She became the matriarch of her family, always caring deeply about her grandchildren, children, sisters and brother and of course , husband Chet and cousin Hillary. In the end she was attacked by a terrible disease...she never had a chance and I never said goodbye.

“ Donna was my middle school teacher and since middle school and up my dear friend . Donna was so much more than a teacher to me. She was like family & I miss her already . She was an amazing woman in my life and so many others. She always cared for others, and they knew it. She always saw the bright side of everything. She believed in me when I didn't even know how to believe in myself and always made me feel special and valued. She joined my family at many events in my life growing up, and I will cherish every memory I have with her. My most treasured memories with Donna , is singing in the car with her when we went anywhere , saving baby squirrels if there nest fell , helping her out with her mom and her dog Rooney , and just always enjoying her company I love you Donna more then you can know , and I will always try to make you proud.
