“ I pray that God will comfort the Mattioli family and all us during this very difficult time. Tony was the BEST boss I have ever had and truly a caring soul. Tony’s email was the last AssuredPartners email I read the day before his passing telling me to enjoy my upcoming PTO. God has answered so many of the prayers I have prayed on my knees and the prayers of my family through Tony. May his great deeds as well as the great impact he has made in all our lives encourage us to lead exemplary lives. Tony’s passing is such a reminder of how mortal we are and that we need to live each day as our last, being steadfast and ready for God’s return because we don’t know when we will draw our last breath. My deepest condolences to you my family in Christ; this has weighed on me heavily as this marks death number five (5) for me in just the past few week but holding on to hope in God. I leave with you Revelations 21:4: “And God shall wipe away all tears from their eyes; and there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain: for the former things are passed away”. Tony will forever hold a special place in our hearts.

“ My wife and I are deeply sorry to about the loss of Tony. Tony and I shared a kindred love of flight and spoke frequently about our experiences and aircraft. Tony and I were supposed to go up in my Cirrus and his Gyrocopter over Thanksgiving but as happens frequently our schedules did not align to let this happen. I will always be thankful for knowing and being mentored by Tony. He was an exceptional individual, executive, friend and family man which I will always be thankful that I had the opportunity to get to know and honored to call a friend.

“ I would like to send my deepest condolences to the Mattioli family. I worked with Tony for several years at Guy Carpenter, where Tony was CIO. We have kept in touch ever since and I consider him to be a dear friend. It was an honor and a privilege to work with him. He was brilliant, insightful and, more importantly, a trusted partner and a truly decent person who was generous with his time, advise and counsel and made everyone around him better. The insurance and reinsurance world has lost a star.

You broke my heart Tony. May you be flying high with the Angels and take Nonna and Nonno for a ride.

You will be forever missed. Aunt Linda

“ I've had the absolute pleasure of working with Tony over the last 5+ years (Guy Carpenter, Marsh and Assured Partners). My sincere condolences to the family and close friends of Tony. In my opinion, Tony was the ultimate professional, had a true passion to do what was right, loved a great challenge and was the most sincere, honest and likable person in the industry. I will certainly miss our catch ups and strategy discussions. He will be sorely missed in so many ways.

“ Tony was a friend and colleague to everyone he met at AssuredPartners. An amazingly talented IT professional that brought AP forward light years from when he joined the organization.
I had the pleasure of working directly with Tony and our meeting would always conclude with forward looking success and optimism . He cared about people and you could see an extra spring in his step when he could provide opportunity to others.
I believe he is still spreading his wings.

“ Tony was my college roommate at U-Conn, back in the late 70s. He was so funny, and so warm -- I mean, a genuinely kind, gentle guy. I'm going to miss his smart aleck wit, and just his voice, most of all. We had just recently reconnected during Covid, via Zoom calls, and after 40 years, he was the same great guy. I'm shocked, but so glad we reconnected. He did love flying, and he did love Gina. I'm sitting here drinking a beer in his honor. I love you, Man. Mike

“ *Tony put his heart and soul into everything he did. From woodworking to sharpening kitchen knives to a razors edge. When he got into woodworking he didn't just dabble, he built a building focused on this hobby. And filled it with the best products he could find anywhere in the world. When he wanted to learn more about woodworking, he didn't just read more books and magazines, he traveled to take lessons from the best teachers he could find.*

“ *What an honor and blessing it is to have been able to work with and know Tony. I can think of no one that was more universally loved and respected by all that knew him. Tony had a rare combination of sincerity, compassion, and humor that would always make you smile when he appeared in your doorway. He had a keen sense of observation and empathy and his intelligence was rarely matched by anyone in the room. My prayers are with Gina and family, I will miss him dearly.*

“ I remember Tony joining PMS in the early 1980's. He and Brooke Carter arrived at the same time and made a splash in Columbia, SC. Everyone who knew Tony respected his intelligence and loved his sense of humor. Throughout his highly successful career in the insurance technology industry, he has mentored and coached some of the best and the brightest in the industry. I got an email yesterday from one of these young professionals. “Working for Tony again really highlighted the massive gulf between him as a leader and 99% of the other folks I have worked for. Call it Level 5 leadership, emotional intelligence, or basic integrity that simply doesn't exist in most people who want to be the boss.” What a legacy he leaves. Rest in peace Tony. Dianne Parker

“ It is hard to pick one memory of Tony. The following story says everything I need to say about Tony - My dog rascal was dying from a rare disease and he needed a special chair called a bailey chair. At the time the only way you could get one was to build it. I spoke to Tony about it at work and three days later he showed up in the office with one that he built in his shop. My dog lived a couple more years because of his kindness. He would do anything to help people. This world lost a very great soul and person.
