“ I was Ms Arlene helper ( Anita) for almost 15 years, and we would have lunch afterward, I always looked forward to our bonding time. We would make each laugh. She encouraged me to start recycling to save the Earth and cook with cast iron skillet. I've learned so much from this wonderful lady. She didn't take mess from no one she would truly be missed. RIH Ms Arlene, you will always be in my heart and memories ❤️

“ The first time I met Arlene and Andy while dating her son, Tim, she told me, “We raised our children to be independent.” I thought that was a bit much for a first meeting, but it, always stuck with me as such an important thing to do and have tried to do that with the children I had with her son. She was a wonderful person and mother in law. I am happy to have known her.
