“ I have missed emailing back & forth with Betty and enjoyed my visits when I got a chance to get to Florida.. The last time there in Sept of 2014, she gave me one of her Elephanta, I took the Green one because I knew she was partial to the blue one.. I had called several times only talking to her Care taker as she was too weak to talk. I am so sorry for her families lost, & Know she loved her son and nieces very much.. Now she is once again, resting in peace with George.. Again, my condolences for the family.. I know she will be missed.. I hope you put a piece of Milk Glass in with her, She loved it so.. Shelly
