“ *Bev was a master seamstress! Her beautiful garments, especially dresses for girls, were stunning and perfectly made. Don would send photos of her work to family members so we could see what she had made including a winter village. I have a hanky she made with a Showy Lady Slipper in one corner that she had made for me. She taught sewing at the Sewing Studio, made model garments for them, and did custom orders for many. What beautiful work she did, including a clerical piece for her husband that was hand sewn. She inspired family members to sew!*

*Emmy Weir Storholm, sister-in-law*
