“ *Grandma I know you are up in heaven, but I miss you so much. You were such an inspiration to me. You were a shining light. You greeted everyone with love and open arms. I remember your Christmas parties where you would invite strangers in just so they would not be alone on Christmas. You never watched TV, but to always had on that old music. And to loved to do one thing the most, dance! No matter your age, you would always dress up and shake a leg (as you'd say). You had such a different childhood growing up in an era that I wish you could tell me more about. I loved your stories. We'd talk for hours sitting on the porch swing. I just wish you knew how much you meant to me. When things happened to me when I was little, you were there for me. I can't say how much I am grateful that I got to have you kitty for my grandma. I love you and miss you*

“ Grandma, I love you and I have wonderful memories of you from when I was young. I will always cherish the memories of you letting me drive your car on your lap, taking me to the movies, roller skating, and all the other other things you did to show me love. I was very close to you and I've never forgot how protective you were for me. I know you are in heaven with the creator and I look forward to seeing you again. -Heath

So sad they way you left the earth, especially on the last day when I saw you, when you left this world and went into eternity. May you rest in peace. (Ian Watson).
