*David was diagnosed with a grade four brain tumor almost two years ago. He had to have surgery to reduce the size of the tumor. We were told that the average life span of someone diagnosed with this tumor was approximately one year. David went through 8 weeks of radiation treatments. David recovered from the surgery and treatments and was well enough to play golf with me up until Sept of 2016. He then started to decline fairly rapidly. David was placed in Hospice of the Comforter in mid October. David took a turn for the worse on Saturday Jan the 7th. He had fought a courageous battle for almost two years and life was taken away from him on Jan. The 10th. I hope David is playing golf with his father, Arnold Palmer, and Payne Stewart.*

*I went to Lake Brantley with Dave when I lived across the street from him in the Springs. Me & Dave had some good teenage fun, we grew up thru high school together. So sorry to see this, he was given every gift but length of life. I often wonder about the old gang of Dave, Robbie Higgins, Steve Michaels, it was the mid 70's and we thought the year 2000 was light years away in some other galaxy. You won't a nicer guy who was a true Floridian,*
