“ As time goes on, it has become very clear why you are not here with us anymore. We want you to know how much you are missed. We now understand what you were going through for the past two years. Just know we always thought you were bigger than life. There was always such a difference in the atmosphere when you were around and it is not the same anymore. We know you are in heaven looking down on all of your friends and we want you to know how much you were loved by everyone, who worked with you or had the pleasure of knowing you. You were such a great guy.....I think we are all still in shock that you are gone. If only we could have had one more talk, laughed one more time or seen that infectious smile of yours, just one more time. You will always be loved and missed. Now is your time to fly and for peace.....

We just do not know what happens behind peoples closed doors, we put on happy faces and play the role we are assigned on this earth, little does anyone know what kinds of problems one is facing.

I think it would be a service to Dr. Poole to discuss the days and hours leading up to the tragedy. I think he would want people to know what he was faced with as we all can learn from him. I think Dr. Poole would like this. We have all benefited from his knowledge, talent and kindness. He became our soul brother and I think, if he could, he would share his story with us.
