“ I worked with Don, on several projects, over our many years together at what started out as UE&C in Philadelphia. Don is testament to the fact that still water runs deep. He was competent, dependable, and a pleasure to work with and our mutually dry/wry senses of humor were complimentary. Don 'knew' the business, whether on the drawing board or in the field and got along with everyone. His design skills are tough to replace and I'm sure he'll be sorely missed by all who worked with him. Anthony Cirillo
