“ When I was 8 years old (1968) I was in a car accident on the east coast and wound up at Florida Hospital and he was my Dr. My mother thought the world of him as I did as I got older. Fast forward 18 years my son is born with a cataract. No one else I trust, my mother calls and speaks with him. He no longer does children but sees us anyway. Turns out to be nothing just watch. "Don" was the finest of human beings, always there when you need him. I hope his golden years were golden. Rest in peace old friend.

“ When he was a 1st year resident at Yale and I a 2nd year medical student, he let me follow him when on call and watch his first cataract surgery. He was the kindest, true gentleman anyone wanted to meet and helped me to decide to become an ophthalmologist. I looked him up now (2019) to thank him but I see I'm too late! We met again in Cannes France many years later. What a GREAT MAN was Donald Guber.

Frank Grady MD PHD, Lake Jackson, Tx.

“ I just learned of Dr. Guber's passing away. I am so very sorry to hear this. He was a wonderful and caring doctor. He operated on my daughter's two eyes. Both surgeries were for Ambliopia. The first surgery was at 18 months old and the second at 6 years. One for each eye. Both totally successful. That was four decades ago. I will be forever grateful to him. She has led a wonderful life with wonderful eyesight because of this wonderful caring doctor.
Sincerely, D.C.

D. Christopher - July 03, 2017 at 07:43 PM

“ I would like you to know that I was unaware of Dr. Guber's passing, but he did operate on my two daughters Kathleen Hicks and Robin Hicks in 1982 and 1985 for congenital cataracts and because of his work, they now have very good vision and are adults and are able to drive. We had to change physicians during their childhood, because of insurance providers. I will be forever grateful to Dr. Guber for what he did for my two girls. I am totally blind and I am so glad that they can see. We are looking for his operative reports for Robin Hicks, as she needs some additional surgery. If you can, please contact me at flmom2006@gmail.com
