“ *To Ella and Family:
Easter worked for our family for years while our girls were young. How I loved coming home from work to find the house sparkling clean and smelling of PineSol. What a wonderful, sweet woman she was and much beloved by all our family. Once she saw a small black racer snake on our back patio and she would never go outside again; she was so afraid of snakes :)
We send our love to you and your family and will always cherish fond memories of your Mom.
With our sincerest condolences to you all.

“ *Dear Easter, we all loved you. You came into our lives back in the 1970's, caring for our two daughters, helping their Mother, and as a friend and companion to my Mother Inez, who really enjoyed spending time with you. My Mother went to Heaven on December 3, 2011, and I just want to believe that the two of you have gotten back together again and are having some wonderful laughs.
Thank you for being a big part of all of our lives.*

God Bless You,

Paul Lockett
