“ Karen Nix - friend posted a condolence Dear Chuck, Linda and Tom, It was a scary day for me. I had just taken a new job at C&S Bank, Stone Mountain branch and I was nervous. What kind of drama was going to await me here? My nervousness didn't last long because I was greeted by the smiling face of Betty, who took me under her wing and made sure everything would be OK. A new friendship was born one that lasted over 20 years!! People at the bank always made fun of us because there was such an age difference. We never felt that way. Betty was so young at heart and had much more energy than I did. Besides the fact that Betty was so much fun, she turned into my life coach and confidant. She was half a generation ahead of me, so I got to watch her love her grandkids, shower them with gifts, brag and laugh at their funny statements. I liked what I saw so I used her actions as a model for mine when my turn came to be a Grandma. I also watched her transition so gracefully into the different stages of life, always making the best of every situation and understanding and accepting when things didn't always go as planned. This seamless transition gift that Betty had was so difficult for me to practice. She offered her guidance at these times and tried hard to help me. She was my role model. I tried to do everything like she did. I tried to be understanding and accepting and not hold grudges just like Betty taught me. And since she didn't gossip, I worked hard not to do that too and to love people for the good in them. Nothing else mattered. That's what she taught. She loved her family more than anything. Her daughter, son, grandkids, husband there was no one more perfect! She knew just what to do when they needed her and she never held back. She was most generous with her love, time, advice and any help if needed. She truly gave and did not expect anything in return. And she never complained. I watched this and tried to practice it myself with my own family. Her dedication and love for Chuck was unmatched. When my husband was so sick through the years, she kept me grounded and gave me hope that everything was going to be OK. And it always was. I also was so impressed at how she made her home in FL during her retirement. She jumped right in and volunteered her time, took care

of people in need and joined the activities with the people there. She made a happy existence and I'm sure was a blessing to all. Now these people are standing ready to help her dear Chuck. Good job, Betty. I can't understand why she was taken. I don't know what I am going to do without her. She certainly can't be replaced. My preacher said a few weeks ago in her sermon that sometimes healing can only take place through death. Maybe that's a comfort. She's healed. She did not like to be sick. I'm selfish and want her back. Thanks for sharing Betty with me. She certainly enriched my life. I wouldn't be the same without her. I hope that her lessons will continue to be with me. I find myself saying already "what would Betty do". I love you all. Karen Nix 770 9263372 404 5148005

“*Dona & Tim Snyder - long time friends posted a condolence Betty was a very special friend. She and Chuck moved to Gull Harbor at the same time that we did 18 years ago and we have been close friends ever since. Betty was a great lady and a very loyal and loving friend. She was always ready to offer help and support to others when needed. She will be greatly missed by us and by our daughter who thought of Betty as a second "mother." We keep Chuck and Betty's family in our prayers*

“ mae aungst - friend posted a condolence Betty, we will miss you more than I can say. We have been friends since we met at the Gull Harbor condo in 94. We had so many laughs together and fun at anything we went to. When Randy and I moved to another condo we still had our get togethers having meals or going out to celebrate a birthday an anniversary and Christmas. We will miss all that my friend but I will have the beautiful memories always. Love Mae and Randy
