“ *It's been 1 year since I lost my best friend and he's missed every day. Gene is in my heart and always in my thoughts daily.*

“ *Gene and I were friends for 23 years so he was part of my family and is deeply missed. Gene was such a kind and generous man. When he ran the garage on Laurel Ave. Sanford, Fl. he often helped people in need. He suffered from dementia (which now explains a lot of his actions the past couple of years). His passing came very quick and I'm so grateful I was able to be at home by his side.*
