“ Marie and family-Our deepest sympathy on the passing of Gene. He was my first true mentor and taught me so much in my career. He took me under his wing and unselfishly shared his knowledge. We worked hard but also laughed a lot. We grew into the computer age together. He was never afraid to learn new things. Those memories will always be very special to me.

May you find comfort with your wonderful memories and thoughts about Gene.

Sincerely,

Keith and Laurie (Price) Keister
