“*Fran was the real deal and true gem of our neighborhood. The stories she would tell and that laugh! (all before the light of day while walking our fur-babies.) I cannot believe we will never see that smiling face again. Such a sad, sad day for all who loved her.*

“*Fran will be missed by all of us! I most enjoyed the conversations and laughs we shared while walking Gracie and Calvin. She always had a story to share and lived life with a capital “L”. Loved doing life with you, Fran (and Mark). You both inspire us to love our neighbors and be generous to those around us. We will miss Fran deeply, especially her smile and laugh. She was a light and delight to those around her. Love you and miss you, Fran. Love, Nancy & Richard Woodruff and kids*

“*Fran was a funny gal; always taking a 'hair' joke pretty well - BUT, don't touch her hair! But she did let me touch it now and then. She will be missed so much. See you on the other side, Frannie! Love and Hugs!*
