“ I love and miss you brother. Ty. For always picking us up when we were little and taking us to visit our mom.
You were so kind, gentle and funny.
Had the best time with you at jetty park, when it was pouring down raining and I squatted beside you, with a bag over my head , trying to not drown. You helped cover me and we laughed and laughed !!
You are so missed. 😭 you are with the rest of the family now and out of pain ! Rip and I will see you soon brother !! I love you forever, you never told me you loved me but the last time we talked on the phone, I think it was easter or some occasion and your kid were at your place, last year before you passed and I said I love you before we hung up and you said I love you too. Will always remember that.
Xoxoxo 🙏❤️🥹🙌
