“ Their are people you never forget the first time you meet them. Well the first time I met Joe was in Jr high and we stayed friends and became brothers in high school. The stories I could tell and the memories I will cherish forever are gold to me. Joe was recently sending me picture and stories of him rebuilding his Pop's truck. Joe you will be missed. Rip My Brother.

“ My Uncle Joe meant the world to me. Although, as I got older, distance became a reality, every time I saw him it was like nothing had ever changed. I've always felt his warmth and love for my family and I. He gave me two of my best friends. You will live my heart forever. <3 Ash

“ I knew Joe for many years, before he married and had kids and after! Met Joe through the CB Radio back in my teen years and he was always funny, kind, sweet and fun to be around. Although Joe and I had some differences along the way, I always liked him and loved his family, kids and wife. Time comes between us all at some point and I lost track with him through the years. Joe, you will be missed not only by your family and kids, but by all the people who knew you well! I will always have great memories of you Budman! May you rest in peace hon! God Bless!

“ *Joe, you will surely be missed. I remember when I would come down to Lee & Debbie's you & me would go bicycle riding then at night we would go to the drive-in to see a movie. We spent a lot of time building a train set in the Garage at the house. We had so many great times together.*

“ Joe and I were friends for a lot of years. We share memories of being Brother in laws and friends. Seeing our children being born and all of the things family and friends do. I know what was important to Joe. It was always family, friends, old trucks, playing pool and fishing. We had less contact over the years as our families changed and our children grew older. However in these last couple of months we had a few in depth talks. We talked about our past and our families, we talked about good times and hard times as we both knew some things we had each been through. One thing I learned was once he loved you he never stopped. He talked about how much he loved his kids and mine. He was proud of all of them to include his grandchildren. Heaven got a good Man, Father, Grandfather and Uncle Joe.....

We've been family for so long... divorce and space can never change that... we just spoke not too long ago and you seemed to be on a good, happier path. You will be missed by so many... but I know with the heart you have you are now our newest guardian angel and we will see you again someday 🙏💙😊
