“ So sorry to see that Toni has passed. We became friends when we were about 13 and we thought we were the two coolest girls ever. We had so much fun together before life had us going our separate ways. Then after about 45 years, we reconnected again - after we became 'old' ladies. Even though we lived miles apart we tried to keep in touch on our birthdays - hers in December and mine in June because we both felt a bond that you don't share with a lot of people. I loved Toni dearly, she was a great friend and she will be part of my heart forever. Gone, but never forgotten.
