*“The autumn chill that wakes me up  
You loved the amber skies so much  
Long limbs and frozen swims  
You’d always go past where our feet could touch  
And I complained the whole way there  
The car ride back and up the stairs  
I should’ve asked you questions  
I should’ve asked you how to be  
Asked you to write it down for me  
Should’ve kept every grocery store receipt  
’Cause every scrap of you would be taken from me  
Watched as you signed your name Marjorie  
All your closets of backlogged dreams  
And how you left them all to me”*

“ Judy and Renee,

*Our love and respect go out to you as we feel the loss of Jose. Please know that by Jose being part of the Deloitte family, all of you are family too. We are all here for you and your family at any time, so please let us know what support we can provide. Those of us at Deloitte that had the pleasure and privilege of working with Jose know his love and dedication that he had for you. His graceful attention to others' needs and his willingness to always help out will be missed greatly. Jose had a positive attitude, a joy for life and a great love for his sporting activities. When it was softball night, there was nothing that would delay #2 from getting out the door and headed to the field! From hearing from Piccolo on our conference calls to Jose's candid view of life and the opportunities to better ourselves and those around us, the space that he left will never be filled.*
