“ Our mother, Evelyn Shiller was a Rudner. When she was in her late 70's or 80's, and living in south Florida, a friend mentioned that she knew a Rudner family, and asked if they were related. As it turns out, these "new" Rudners were long-lost cousins. They reunited, and remained close. Knowing Jack and June, Estelle and Yvette, and their families, gave our mother so much joy and pleasure.

And, although we didn't see them often, we always enjoyed their company and were so thrilled when several of them came to Jacksonville for our mother's 90th birthday in 2005. She loved having her extended family with her.

“ My mom made friends wherever she lived. She also loved bright colors, bold patterns, shopping, and ice cream. Hours before she left, she enjoyed one more dish of chocolate ice cream. She was determined to live long enough to vote for the first woman president of the U.S. She died less than a week after casting her ballot by mail.
