“ *jim lorenz - acquaintance posted a condolence I served with Kevin on both the TI Code Enforcement and the PNZ boards. He left the PNZ some time ago and he was missed. When he walked he so did a little sunshine and happiness. He was always upbeat and spread around good will and a little candy at every meeting. He really cared about TI and was contributor, especially on the Local Planning Board the past few years. He is one supporter and helped to bring new ideas in to rebuild and refresh the city. He will be missed.*
