“ Dear Lindsay,

You were my first friend after I came back into the world from my cancer surgery and rehab. Most of the friends I have now I wouldn't know if it wasn't for you. Thank you for being my “bestie”. You will be missed by everyone. You touched so many people's lives. So for now...

*Tonight I'll dream, while I'm in bed
When silly thoughts go through my head
About the bugs and alphabet
And when I wake tomorrow, I'll bet
That you and I will walk together again*

“ *Lindsay was always protecting and sheltering me in the best way possible. She made sure she connected with us, even through the hardest of times. Now that she is gone, we have one less sister and daughter on this earth, a part of all us are breaking into pieces that cannot be picked up, and we will never be the same as a family.*

Lindsay had an infectious smile and she always lit up the room with her amazing personality. She was smart, gifted in music, has amazing friends, and til this day, those connecting with our family are wondering why she was taken from this earth way too soon. We can never know why, we just know it is unfortunate. Lindsay, rest in peace my dear sweet angel of a sister, you are missed and are so very loved beyond measure.

- Love Bethy (I will always miss you calling me by that and hope I never stop hearing it from others as one of many amazing memories I have of you)
