“ *Marcia and Don always welcomed me , Bailey and Elliott when I traveled to Orlando to work at the surgery center I loved every month after I moved to Maryland but Bel Air did not have great job opportunities so I kept my job in Orlando . Marcia even bought a large gate when I came down with Bailey’s 4 puppies , Bailey and Elliott ! She loved dogs like I did !*

“ *Marcia , Don , Gary and I drove to the lake house to bring the boat home to Orlando ! Gary was being nasty to me so I refused to go in the boat to drive it to the public dock ! Don went and when they pulled away from our dock the engine cut out ! The paddle in the boat fell into the water so Gary attempted to throw the rope to me to pull it in ! They were drifting so after a few attempts from our dock I ran to the dock next to us as they were drifting that way ! They continued to drift to the next dock so I ran down **THAT DOCK ACROSS THE LAWN** to the next dock but he could not get the rope to me ! I told him he was in knee to waist deep water and should just get into the water and walk the boat in . The scene was so funny with me running dock to dock telling him to just get into the water because it was shallow and him panicking . Marcia sat on our dock watching this play out and laughing hysterically which made me laugh the entire time . We often reminisced and laughed about that ridiculous but hysterically funny episode in our past ! I think what really made us laugh is that Gary was panicking and so mad but refused to believe me that he was in shallow water .*
