“ *In 2010 Margaret asked would I be her mom ? I responded :YES but sisters and circumstance would not allow it ! We both missed out on much sharing and much love ! Now there is no more chance to share lifes joys and sorrows! Let us remember we are not here forever! ! Forgive and forget and go on with life and love one another ! It is a short journey,we do not get another chance! I ask forgiveness of those I hurt in any way and I forgive those who hurt me ! I send this message of love to all my family and every family from the bottom of my heart ! Shirley Ann Nunes 357*

“ *My wife fought an amazing fight against stage 4 breast cancer. She amazed us all, by remaining positive, and beautiful. We were sure that she would beat it. That is why we are so shocked, by her passing. She has left behind a legacy in her daughters and in everyone she met she instilled a "never give up" spirit that will help those of us who remain to achieve any goal we set in life. Just remember Margaret whenever you feel like giving up, and you won't surrender to failure. Through Jesus, she has victory even over death.*
