“ *My Mother was full of life full of fire. And she raised her children to have that same fire. She was one to always to sacrifice for her family. She brought us up Catholic and sent us to the best schools. We always had a hot dinner and clean clothes. She never got mad about coming in late or bring home a stray cat. She read the paper everyday and loved sports, especially Norte Dame Football. She was very proud of her granddaughters and great grandchildren. Oh and she was especially fond of the Democratic Party, never discuss politics with her. I miss our daily phone calls already. Love You Mother.*

“ *My grandma came to every one of my high school games. She was proud of her daughters and granddaughters achievements, always bragging to anyone who would listen. She was always generous with toys and gifts, a child at heart, she knew what kids would like. Even though we live across the country, she would send my children wonderful toys and dolls.*

My favorite memory of her was being at her house and hunting for Christmas gifts she would hide in her closet.

I love you Grandma. Rest in peace.
