“ *I knew and worked with Mike from the first day he came to what was then International Laser Systems in the early 1980s until I retired in 2011 and I considered him one of my best friends at work. When Mike came to ILS I was working on the PAVETACK Depot system and Mike was assigned to review our software and test procedures. Mike was always a stickler for details and making sure that things were done right but he was also always fair and open minded. If you had a good argument he was willing to listen and be swayed to your opinion. It got to be a joke between us that whenever I brought software or procedures for Mike to review, I brought a red pen with me. Because I knew that I had to pay attention to details when dealing with Mike, he made me a better designer and writer.*

“ I worked for Michael from 1983 to 1989. He was a super person boss and friend. I am now retired but tried to stay in touch with Michael. I left a voice message on his phone two weeks ago but he did not return my call. While I worked for and with mike we had some super moments. We laughed and joked at lot. I would like to share one memory. We had a discussion about a live lobster preparation. Mike said the lobster was trying to climb out of the pot. He was also making noises and acting like he thought the lobster acted. I still think about that and laugh. I will truly miss my ex-boss and friend. Joanne Whitmore. My name was Joanne Holloman when I worked with Mike at litton laser systems. My condolences to the family.
