“ I have thought about Millie, Kathy and Karen especially, over the years. We were friends after our moms met. I have great memories of you. I always thought Millie was funny, I don't think I realized how much until years later after m my I was an adult. She was real and honest, I guess like “Roseanne”. If it was a spade, you call it a spade. If she didn't like your hair, makeup or your new dress she would tell you. I always felt at home when I was there on Indiana st. I think Johns parents lived next door. They always had a pool too. I think Kathy and I were closer bc of our age. My mom, Sue or Susie and Millie were good friends. I wish she would have stayed in NC when they moved up here together. I will have to let my mom know of her passing. It is so sad, I wish I would have looked her up before just to let her know I was thinking about her and the girls. Rip sweet and funny Millie, you are loved.
