

## Narsingh Deo

January 2, 1936 - January 13, 2023

Professor Narsingh Deo came to Orlando in 1986 as the Millican Endowed Chair Professor of Computer Science at the University of Central Florida. Dr. Deo and his wife of 55 years have lived in many places such as Pullman, Washington, Pasadena, California, Evanston, Illinois, and in Kanpur, U.P., India.

Prof. Deo was renowned in his field of graph theory algorithms, combinatorics, parallel computing and bioinformatics.

He leaves behind his wife Karen, and three children Alok (Monica), Sandhya (Steve), and Jyoti (Peter); also five grandchildren Rajan, Nikhil, Neha, Kiran, Joelie and his brother Mohan (Cathy) . His service will be for immediate family.

“ *Prof. Narsingh Deo was an extraordinary human being, a top-notch  
academician, and an outstanding mentor. I owe him a lot for what I  
am today. He was not only my academic father but also a real  
father.*

*I didn't realize our mid-May 2022 meeting in Orlando would be the  
last one.*

*May our beloved Professor's immortal soul rest in eternal peace in  
the heavenly abode. Our condolences and deep sympathy to Mrs.  
Deo, Alok, Sandhya, Jyoti and their families.*

“ So many memories in a 57 year history. When he first met our family I was 10. I was too young to understand his genius. He was just my sister’s handsome boyfriend then fiancé then husband. I just thought he was hilarious and made me laugh. Through the years we had our inside jokes like achar and sock monkeys. Then when I became an adult he became a friend and brother. We have had serious times, but we enjoyed much laughter and love. He was a wonderful husband to my sister, good to our parents and a proud Papa. He and my sister have shared the most amazing, intellectual, adventurous, and full life. Narsingh loved to learn and experience new things. I enjoyed being brought along sometimes. There is another hole in my heart with his departure from this life.
