“ I had the pleasure to work for a time with Patrick at the Florida Hospital Association. I recall that anytime I had a question he could provide the answer. I do recall when he mentioned being born in Barnesboro, a town he remarked no one knew. He was surprised to learn that while in school I came close to buying the Barnesboro radio station. We discovered it is indeed a small world. I was very fortunate to share my small work world with Patrick. My prayers to family on your loss. Ken Peach
