“ *Nancy Ritz - friend posted a condolence I went to high school with Gene. I had not seen him in many years but ran in to him at Publix just a few months ago. We chatted for a few minutes. He has just returned to work after his 2nd cancer episode. He talked about his long term marriage and his kids and I came away with the feeling that he was content and grateful for how his life had turned out, despite the cancer. It was good to see him after all those years.*
