“ My condolences to the Haury family. I work with Lisa and had opportunities to meet with Mr and Mrs Haury and family. Mr Haury's kindness and smile will always be in our minds. I remember his devotion to building airports specially the time when he received the bid to build Guangzhou Baiyun International Airport, he was most excited about it. When Mr Haury showed me the blue print in both languages, I could see his fulfillment in his face. I did go to this airport and walked around years later to see his achievement. His devotions to his family (learned from Lisa) and work are admirable.

“ My favorite memory of Uncle Dick was when we visited them in Denver. Aunt Mary Anne looked after Krystal when she was 18 months old, so Uncle Dick could take my husband and I skiing. He showed us how easy the blue slopes were and how some of the black slopes weren't! He was so easy going, funny, and cheerful. He reminded me a lot of my Dad. I have always loved being with him and listening to him tell stories about his youth or how something worked. I know he is having a wonderful chat with God right now.

“ Heartfelt Condolences to the Haury family. Dick got my career started in the Airport Industry with my job at Greiner Engineering in 1987. He was always a Gentleman even in stressful times and thoughtful in his dealings with staff. He leaves behind a legacy of airport projects one more impressive than the other. He will always be remembered! RIP
