“ Vicki Biller Gier uploaded photo(s) Robert (Bobby) was/is my 2nd oldest brother. He was 12-years older than his "little sister" a term he lovingly call me. Bobby often lived in the shadow while growing up, often taking teasing that some siblings might think as normal, but he did not remain in the shadows ever to me. Bobby was a kind soul. He gave of himself altruistically, and I personally have many examples being his "little sister". During my pregnancy with my oldest son at the ages of between 17 -18 years of age, Bobby worried about me so much that he invited my husband and me over often for a good, home-cooked meal and we played cards for hours as it was his way of making me feel loved, and, to make sure nothing happened while I was young and pregnant. He never stopped caring for me over the years and was always an ear when life didn't always turn out the way I had hoped. Bobby had a wonderful sense of humor and loved to laugh and make others laugh. He signed up for the army and served 18 months in Saigon where he was exposed to Agent Orange. In the last 20 years of his life, he suffered from the horrific side-effects from the toxin, and even though suffering he remained a good and loyal friend to others and a loving brother to me.

My heart was broken when I heard he had left this world. I know he is in heaven with all of the relatives, friends, former military friends, and their families. He was not given a military service, a sin, and shame on the ones who took that from him today. I know Bobby's request was for a Catholic funeral, a rosary, and a military send off; therefore, once it is safe for me to travel to Florida I will gather those who loved Bobby for a memorial service and giving him his earned, military service. He died for his country. YES, in 2020 Agent Orange Killed him the same as a fallen soldier on the field. I will be posting on this tribute wall and posting more photos of how I want to remember my brave brother. I love you Bobby, and I am so sorry I was not there to lay you to rest.
