

Dr. Robert Paul Dalton Jr.

November 16, 1962 - December 17, 2018

Dr. Robert P. Dalton Jr. of Maitland, FL passed away on Monday, December 17, 2018. He was on his way to one of his greatest pleasures – working with his patients. He was born in Camden, New Jersey on November 16, 1962 to Robert Paul Dalton Sr. and Nancy Catharine Dalton. He is survived by his wife Stacy Tilton Dalton and their two sons, Robert (“Trey”) and Tyler Dalton, his parents, his sisters Susan Carney and Colleen Sarp, and his brother-in-law Dennis Sarp. He is also survived by his mother-in-law Patricia Andrews and his brother-in-law Michael Tilton. He attended the University of Florida before completing his undergraduate degree at the University of South Florida. He earned his medical degree from the University of Oklahoma College of Medicine in Oklahoma City, and followed his MD with an internal medicine residency at Baylor University Medical Center in Dallas. He completed a cardiology fellowship at Tampa General Hospital, and an interventional cardiology fellowship at Baylor University Medical Center. He then moved to Orlando in 1999, where he began working in private practice with the Orlando Heart Center, and ultimately joined Orlando Health Heart Institute Cardiology Group. He dedicated his life to serving others, no matter if they were a patient, friend, colleague, or stranger. One of his largest loves of cardiology was his patient contact, and the opportunity to check in on his patients over many years. Cardiology enabled him to improve a patient’s quality of life immediately, something he valued every single day. Not only was he able to do this through his interventional procedures, but also simply by coaching and

mentoring his patients. He met his wife of 33 years, Stacy, while attending the University of Florida in 1981 and they were married in 1985. His family meant a lot to him; he cherished his wife and sons dearly and spent with them as much time as he was able. He enjoyed spending time outdoors: snorkeling alongside his relatives and friends in the Keys, working in his rose garden, and pursuing his love of boating and biking. He truly sought to nurture those around him, whether it be through a joke or a shared moment. His caring, jovial, and deep personality is felt and dearly missed by all who knew him.

A Visitation will be held from 6 pm – 9 pm on Friday, December 21, 2018 at DeGusipe Funeral Home & Crematory, 9001 Orlando Ave, Maitland FL 32751. A Celebration of Life will be at 10 am on Saturday, December 22, 2018 at First United Methodist Church of Winter Park, 125 N Interlachen Ave, Winter Park FL 32789. A short reception will follow the service.

In lieu of flowers, the Dalton family kindly asks for donations to be gifted to any of the following organizations: the American Heart Association at the AHA website, <https://www.heart.org>, the Voice Health Institute, <https://joe-digregorio-63pe.squarespace.com>, or Orlando Health Foundation, <https://www.orlandohealthfoundation.com>.

“ *A calm, laid back, friendly doctor with a good sense of humor. You are missed, I hated it when they sent you to Maitland and we had to start with a new cardiologist downtown.*

Well Heaven got a fine man. That was a shock none of us dreamed of. It just goes to underline how important it is to live life as if every day might be your last.

G. David & Maureen Ballentine

“ I am a recent patient of Dr Dalton. In the short time that I had/have known him I considered him a friend and not just my cardiologist. Eleven days ago when I stopped by the office for a refill script I played a song for the two young ladies at the window that I had played for Dr. Dalton when he performed a stent operation on my (about five months ago). It was Doolin Dalton by the Eagles. We would joke about exotic sports cars that we could not afford and about the fact (my joke) that some cardiologist should invent an exterior plumbing system for persons like myself with radical blockage. I hope you do not consider this flippant but these are my memories of Dr. Dalton. I have been so very upset about him leaving us and have just martialed up the moxie to leave this tribute. Please if you do consider this out of place delete it.

“ I first met Dr. Dalton December 15, 2005 when his Mother-in-law took me to his office in order to have a procedure that determined I needed an immediate quad by-pass. Realizing the importance of this operation he had Dr. Sands cancel his appointment the following day and operate. Without a doubt it saved my life and thirteen years later I am still doing fine thanks to his diligence. I found Dr. Dalton to be a true professional in every respect and a doctor that really cared for his patients. Later when I had a follow-up appointment with him he was interested in knowing how I felt about the manner in which he treated me - the point being he was interested in me and my feelings. I am so saddened for his wife, Stacy and his two sons. I pray for them and hope they find some peace in the way he lived his life - always thinking of others. Donald O. Newton

“ My husband was a patient of Dr. Dalton. I would accompany my husband for his appointments, Dr. Dalton spoke to us in layman's terms. He truly was a delight, we were looking forward to our Feb. appointment to discuss my husband's care and to ask him about the muscle car he had recently given to his younger son. Well done my good and faithful servant. Betty Hollis

Betty Hollis - December 22, 2018 at 07:11 PM

“ When we moved here from Missouri 6 plus years ago, we had the daunting task of finding a new cardiologist for my husband. After much research we chose Dr. Dalton and what a fortunate choice that was for us! We always found Dr. Dalton to be caring, skilled, knowledgeable, patient and able to explain what was needed or happening in a way we understood. We trusted him completely! 2017 and 2018 were difficult years for my husband and Dr. Dalton saw us through everything. And when our daughter needed a cardiologist, of course Dr. Dalton was her choice. When he moved to the Longwood office we followed him. The last time we saw Dr. Dalton in mid-September, he thanked us for driving so far. We told him he was worth it! To the Dalton family, we offer our deepest condolences and hope that you find some comfort in knowing how much he meant to his patients and their families. Dr. Dalton, rest in peace! You will be greatly missed by the Stutzman and Langston families!!

“ This is Susan (Rob’s oldest sister). On January 1st this year I fell and experienced a subdural hematoma. While my surgeon was trying to discover what was wrong with me, he and Rob were able to both see my CT scan on the computer and talk on the phone about my background health history. Without his experience I don’t think I would be here.

I love ❤️ you so Robie

“ My heartfelt and deepest sympathies to Dr. Dalton's family, friends, colleagues and medical staff. Dr. Dalton was my cardiologist for almost 20 years and even when I moved out of state I traveled a long distance to see him. Dr. Dalton exemplifies the caring, compassionate and best physician, who genuinely cared for his patients' well-being. I will forever be grateful for his kindness, compassion, sense of humor and happy disposition.

Rest in Peace Dr. Dalton -- you will be terribly missed.

“ Dr. Dalton was an amazing physician who challenged me but always kept real. Having to wear head coverings he would wear a Krispy Kream hat. On this day (March 20, 2017) he couldn't find it, so he wore a shoe cover instead. It was his way of dealing with life. He'll be dearly missed!

“ *We are saddened and heartbroken upon hearing this. What a wonderful man and doctor. He saved the life of my husband and my mother. I will never forget the many conversations we had, the talk about the NBA Golden State Warriors)we would give him our season tickets for these games each year we had them. Many funny conversations, always had time to speak with us, never rushed us, very thorough and great bedside manners.*

We will forever miss him, rest in peace.

“ Dr. Dalton was my Mom’s cardiologist since 1999. Later also my Father’s. Mom fell in love with Dr Dalton & trusted him completely with their heart needs! He was not only their trusted cardiologist, but also a friend. He always took the time to listen to Mom, and tell her exactly what she needed to hear! He has taken her through many heart catherizations, stints, open heart surgery & a special watchman procedure. Dr. Dalton was very patient with our family. He knew that we were very involved with Mom’s health & made it a point to know her doctors & nurses! He was always open to talk to us and help us understand Mom’s needs. We relied much on Dr. Dalton. Whenever Mom ends up in the hospital, and the floor cardiologist would suggest something- Mom would always ask... “ Is Dr. Dalton ok with that? Please consult with Dr. Dalton! ” We never let anything done with Mom’s heart, unless Dr Dalton says so!! Dalton family, our hearts hurt for your loss! We thank you for sharing Dr. Dalton with us!! We pray that you all would be comforted and find peace during this time! May God be glorified!!
