“ *Lee Surrett - coworker posted a condolence Hi Shirley and family:
So sorry to learn of Bob's passing. Bob was a wonderful person and
was a highly respected engineer with GTE. Bob could always be
counted on to handle the projects which required a lot of expertise
and attention to detail. I remember that Bob was the engineer for
the Gandy C.O. cutover back in 1974 or 1975 and how hard he
worked and prepared, to make this project a huge success.*
