Ruby Huey you were like a second mom to me. I will treasure all the memories that we shared tried my best to honor those memories bypassing them down to our families. You are so loved to miss but I also know you're at peace and with your children and that warms my heart especially considering that your son was the love of my life. My heart this filled with love cuz if he was and it showed me what unconditional love is. And that is because your love and heart is rare these days I love you Mama about you all the time.

Ruby Huey you are like a second mom to me. You and Joey Huey showed me what unconditional love was and that I will always be grateful for. Took me in as your daughter-in-law and that I am so grateful for too. Your son was loving my life and knowing that you and him are together and you are at peace warms my heart with joy. You are rare person and we need more people like that on Earth . The love that you had for life is inspiring and I will always try to pass that on. And I will share that with my family. You might be in heaven and gone from this Earth but I will never let you be forgotten I love you.
