“ Sally was one of the first neighbors we met when we moved to The Villages. She lived just a few doors down and across the street from us and we frequently saw her traveling in her golf cart or working in her yard. Since we only moved to The Villages six years ago, we enjoyed Sally's friendship for about three years before she move away to be closer to family. Sally always had a ready smile and kind words for us. We also came to appreciate the jams she made for us as well as other littles gifts she would make and deliver to our doorstep. A true Southern lady, Sally was always impeccably dressed and spoke in a slow southern drawl (at least to my Northern ears. ) She will always be remembered by us as a truly gracious and lovely person.
