“ It is with a very heavy heart that I learned of Tracey's passing just recently. Tracey and I went to Oviedo High School together and we met when we were both in 6th grade. Truly one of the nicest people I ever knew.

Erin Monfort - September 10, 2024 at 09:58 AM

“ I know Tracey will be missed by her family as much as her former colleagues. She often spoke to me about her family, particularly her son who was in the Navy and everyone in her care. She was conscious of doing good nearly to a fault, placing her own personal welfare subservient to that of others and those with whom she worked. I met Tracey in 1979 and had the pleasure of working with her again after I rejoined the firm in 1988. The last few years of my work were punctuated by meetings with Tracey as she struggled to preserve the legacy of knowledge she, Dave Russ and others had persevered to protect for the future. Knowledge comes and goes - our memories of those who serve to protect that knowledge should remain. Tracey, you are missed but in a better place.

“ My thoughts and prayers are with Kevin, Brandon and their families and with Tracey's brother and his family. Tracey was very kind and thoughtful. I am sad too. Aunt JoAnne.

CC

“ So sorry to hear of Tracey's passing. She was wonderful and patient person to all.
God bless to family and friends during this difficult time of loss.

Cathy Carver - March 30, 2021 at 11:21 AM

TO

“ Condolences to Tracey's family. She was a sweet person. She was a nice person that always checked up on my family/kids before we worried about any work to be done. You knew she cared about people. I'll miss her. - Tommy from A&FE

DR

“ Tracey started working with me when she was eighteen years old. She worked with me in Data Management for several years. She was always willing to learn and worked her way up to several different job titles. She will be missed in Data Management with all her knowledge she acquired in Data Management.
