“ (Then) SFCs Irv Pangman and Jack Bosse were our Asst. Professors of Military Science & Tactics ca. 1956-58 at Detroit Cooley HS. They instilled in us discipline (SFC Bosse hammered on the discipline paragraph in "The Soldier's Guide.), history of the Armed Forces and those who served: their effective, complementary modes of instruction made us qualified candidates for serving our country in enlisted, pre-commission or other status. One of the quiet professionals, SFC Bosse responded to questions from us ROTC cadets ref. his experiences in the combat zone of N. Luzon, mentioning, humbly and matter-of-factly, his recon Co duties in the mighty 11th Airborne Division "Angels." He inspired at least 2 of us cadets, who joined the Army, to go airborne (ATW) all-the-way...and then some, serving in the 82D Airborne Division. He has reached blue skies and made soft landings. Requiescat in Pace, sergeants.

“ We will miss seeing Walter when he visited the parish office - always bringing us a very special treat from when he went to the commissary. He adored his PeeWee - Barbara and we will remember them both in our thoughts and prayers here at All Souls. May God give him eternal rest and happiness.
Ann Cammarata
All Souls, Sanford
